

Victorian Grandeur

Imagine luxurious hand-pressed velvet from France, feature furniture and décor pieces finished in gold gild. All combined with contemporary elements to create an opulent and warm interior. That is what Mark Alexander brought to life in this home, inspired by the regal and ornate European mansions of the Victorian era.

Feature Furniture & Decor

Opulent & Warm

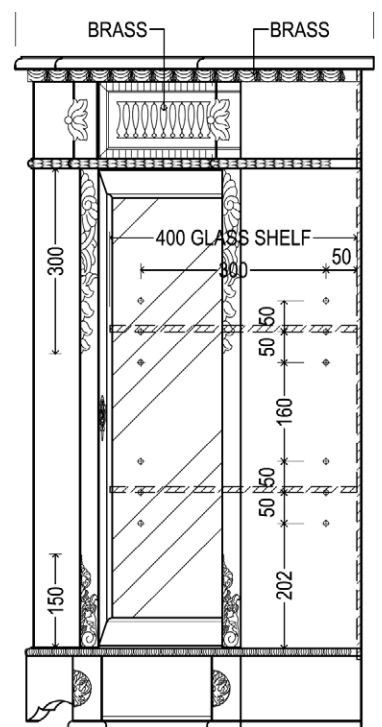

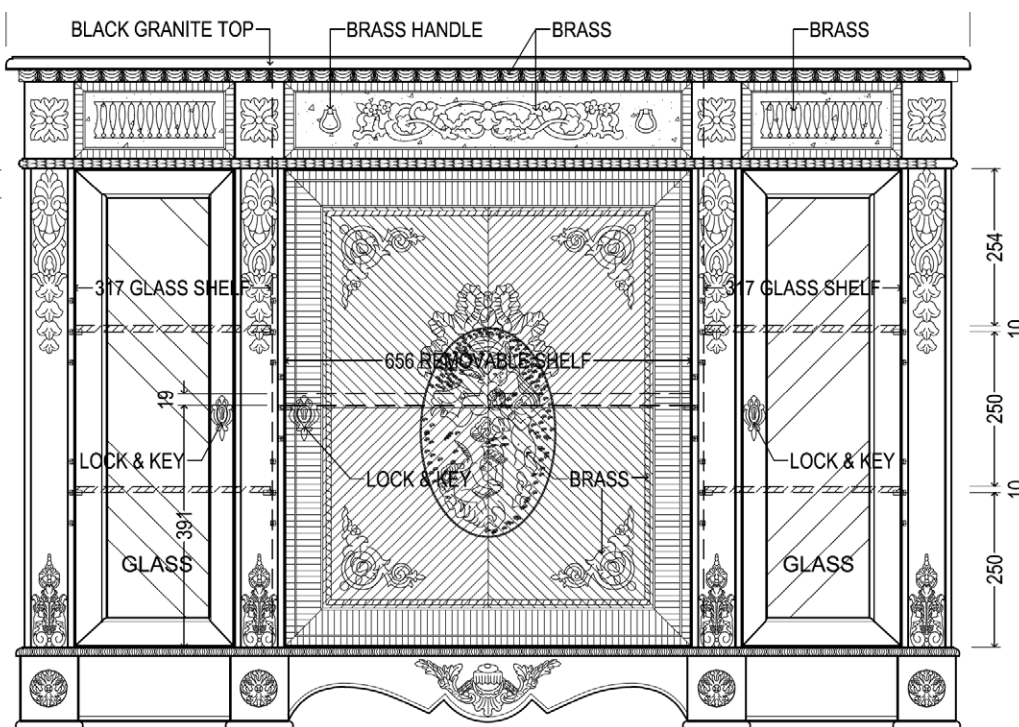

Artisan's vision statement

This home was driven by the dynamic and dramatic wealth of colours of the true Victorian, English Buckingham Palace period, rather than the Australian Victorian style of muted colonial colours. As an artist only to find the vision from picture after completion. The celebration of extravagance of details, colour & skill.

Luxurious Design Artistry

*“Artistry is
controlling of the
dramatic, releasing
into a reflection of
itself, charming it
into the joys and
wealth of colours”*
